Air Alliance Houston is concerned about reported upset emissions in the Houston area, including air concerning areas other than Manchester/Houston's east end. Bakeyah Nelson is aware of the City's efforts and EPA deployment efforts to assist with air monitoring. She wants to know of TCEQ efforts involving them in air monitoring.

The issue came up during the EJ call this morning (which we will include in our call report this afternoon). Bakeyah is following up.

Please advise.

Hi Arturo,
Do you have an estimate on when you can let us know about where TCEQ is monitoring?

Bakeyah Nelson
